

With 3M™ Safety and Security Window Films your windows can be transformed from your weakest link to a source of strength, helping to protect your home and your family from threats such as break-ins and severe weather events like hurricanes. 3M Safety and Security Window Films are designed to help hold the glass fragments together, reducing potential injury from flying glass during severe weather. Because these films help hold the glass together, a stronger barrier is created, slowing down criminals to the point where they may choose to flee for an easier target. 3M Safety and Security Window Films are available in clear, safety-only versions, or as a combination film with both sun control & safety features.

Ultra Prestige Series

- The ultimate in high technology, offering 28 micro-layers of strong, tear-resistant Ultra
- safety film with the added advantage of Prestige Series sun control films
- Designed not to change the appearance of your home, allowing up to 70% of the visible
- light through your windows
- Holds glass together in the event of a break-in or severe weather

Rejects up to 60% of the heat coming through your windows and reduces hot spots by rejecting up to 97% of the sun's infrared rays

Ultra Series

Ultra technology offers up to 42 micro-layers of strong, tear-resistant safety film

- Superior performance over standard polyester films in blast and impact events
- Available in clear safety film or with a tinted sun control option

Safety Series

- These 7 and 8 mil polyester films offer basic protection
 - Paired with a special thicker adhesive to help hold broken glass together
- Available in clear safety film or with a tinted sun control option

3M™ Impact Protection Attachment Systems

- Bonds the filmed window to the frame with either an adhesive or profile option
- Attachment system offers the highest level of protection—strong enough to handle even bomb blasts
- Creates a robust window protection system that significantly outperforms window film-only installations

IMPORTANT NOTICE: This product is **not approved** in the State of Florida for use as hurricane, windstorm, or impact protection from wind-borne debris from a hurricane or windstorm. In compliance with Florida Statute 553.842, this product may not be advertised, sold, offered, provided, distributed, or marketed in the State of Florida as hurricane, windstorm, or impact protection from wind-borne debris from a hurricane or windstorm.
